TRIO Talent Search

Talent Search is designed to create and sustain a college-going culture for its target schools and to improve parents’ capacity to prepare their child/children for college.

We envision community and family partnerships that create and sustain an academic culture where all college prep participants are college-ready and fully prepared to succeed at the collegiate level. We accomplish this through assisting with applications, financial literacy and FAFSA, academic advice, course selection, tutoring services, SAT prep, college tours, and workshops.

TALENT SEARCH AT A GLANCE

- 11 Schools
- 466 Students
- 96% Low-Income
