The NetTutor dashboard displays available tutoring resources along with the group's locker.

Drop in and Meet with a Live Tutor connects you with a tutor in NetTutor's text-based lobby. Continue to work in the lobby, ask a tutor to open the whiteboard, or ask a tutor to launch video chat to use audio, video, and screenshare features.

Lobby view

Participants:	Taylor D:: Hi Joseph, Im Taylor Velcome to NetTutor!
	Taylor D.: How can I help you today?
oseph Bower	Joseph Bower: H! Can you open up the Whiteboard?
	Taylor D.: Sure, just a moment please
	Type your message below. Hit the Enter key to send the message to the room.

Step 2: Use the whiteboard tools to show your work and ask a question. Once you're finished, click **SUBMIT**.

 There is investigated as two underent ways to find the original standard standard of the method, right the same results as him. Using the other method my answers were different. This is the provided dataset as well as the given answers from my instructor: [-13, 25, 39, 40, 52, 64, 75, 80, 98, 109, 115, 128, 139] (-14, 39.5, 75, 112, 139) IQR: 72.5 IF = -69.25 UF= 220.75 Using the first r mod 4 method show by my instructor: n = 13 13/4 has a remainder of 1. This means one data value will be the exact percentile measure (median) and q1 and q3 will be averages splitting the data set up visually. -13 25 39 40 52 64 (75) 80 98 109 115 128 139 where there is equal spacing between markings and q1 is the avg of 39 and 40 and q3 is the avg of 109 and 115. I get the same 5 number summary (-13, 39.5, 75, 112, 139) and the same everything else. This is good for small data sets, so he also gave us the formula: L = (k/100)(n) 	Sessi	n Tools	Keypad	Fsize	Fstyle	Color	Help		06:2	9	Ś	ك آ	डो	1 🗸 🔸	۶	PISCES®		
 In this dataset to find q1 and q3 (p25 and p75) L = 25(13) = 3.25 so round up and X(4) is the percentile, 40 L = .75(13) = 9.75 so round up and X(10) is the percentile, 109 I to fit water state to fit and the top and top and the top and top and top and top and the top and top and X(10) is the percentile, 109 I top a top and X(10) is the percentile, 109 I top a top and X(10) is the percentile, 109 I top a top and X(10) is the percentile, 109 I top a top and X(10) is the percentile, 109 I top a top and X(10) is the percentile, 109 I top a top and X(10) is the percentile, 109 I top a top and X(10) is the percentile, 109 I top a top and X(10) is the percentile, 109 I top a top and X(10) is the percentile, 109 I top a top and X(10) is the percentile, 109 I top a top and X(10) is the percentile, 109 I top a top and X(10) is the percentile, 109 I top a top and X(10) is the percentile, 109 I top a top and X(10) is the percentile, 109 I top a top and X(10) is the percentile, 109 I top a top and X(10) is the percentile, 109 I top a top and X(10) is the percentile, 109 I top a top and X(10) is the percentile, 109 I top a top and X(10) is the percentile, 109 I top a top a top and X(10) is the percentile, 109 I top a top a top and X(10) is the percentile, 109 I top a top a top and X(10) is the percentile, 109 I top a top a top and X(10) is the percentile, 109 I top a top a top and X(10) is the percentile, 109 I top a top a top and X(10) is the percentile, 109 I top a top a top and X(10) is the percentile, 109 I top a top a top and X(10) is the percentile, 109 I top a top a top and X(10) is the percentile, 109 I top a top a top and X(10) is top and X(T-	Hello!
